

# On January 10, 2013 Change is Front and Center Again

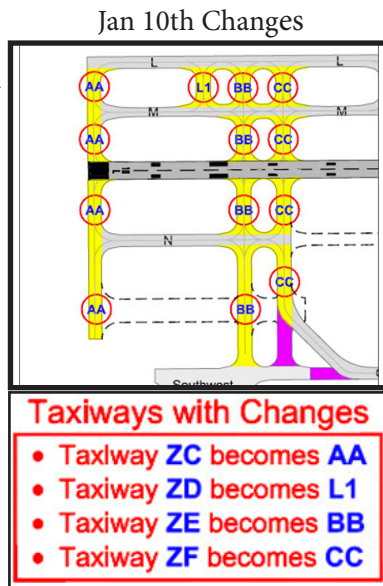

## O'HARE IS GEARING UP FOR A NEW TAXIWAY REDESIGNATION PROGRAM

### WHY CHANGE?

Over the next two years virtually every taxiway at O'Hare will be redesignated. In order to accomplish this monumental change a small group of taxiways will be redesignated every 56 days, beginning January 10th 2013.

#### Change Dates (2013)

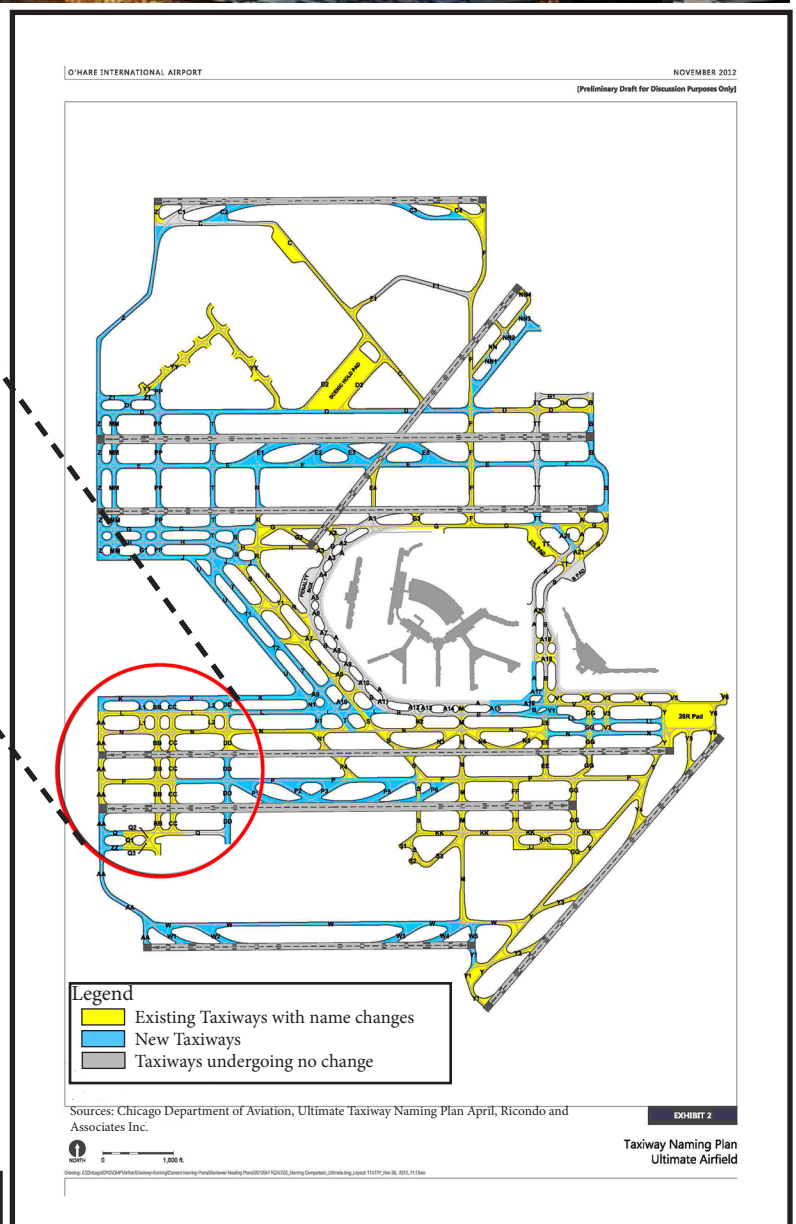

- January 10
- March 7
- May 2
- August 22
- October 17
- December 12

The new Taxiway Designations were developed in conjunction with the FAA, CDA, Pilot Representatives, and O'Hare Tower and aims to eliminate confusion by eliminating taxiway designations that use two unique letters in favor of double letters (i.e. LL instead of ZV). The new designations will also increase the uses of alpha - numeric Designations.

#### Many More Changes are coming to O'Hare:

- Runway 10-28 Redesignated 10L-28R on May 2, 2013
- Runway 10C-28C Commissioned - October 17, 2013
- Runway 10R-28L Commissioned - October 15th, 2015
